Appendix 1 – Centre Form (Form 6).....	6

Introduction

The Department of Examinations liaises and collaborates with MATSEC Office to coordinate the administration of the May and September MATSEC Exam sessions.

The Department takes the necessary measures to ensure, so far as is reasonably practicable, excessive noise prevention and/or mitigation within the selected exam centre venues during the whole duration of exam time.

Noise Management Measures

The following measures are adopted by the Department of Examinations to safeguard reasonably practicable noise management in Exam Centres during MATSEC exams:

1. Compilation of venue availability including relevant information related to school-based activities/events through direct communication with the Head of School and/or School Leadership Team.
2. Confirmation of specific classroom/hall use on actual exam days with Head of School and/or School Leadership Team, following final Exam Centre selection by MATSEC.
3. Meeting with Head of School and/or School Leadership Team representatives prior to MATSEC Exam session start, to secure smooth exam progression aligned to noise management procedures such as minimizing noise during change of lessons and break time. (Meeting is held conjointly with DG DES.)
4. Meetings with appointed Exam Centre Supervisors, Assistant Supervisors and Invigilators prior to exam session start, to ensure adherence to established exam noise management procedures.
5. Review of *Noise Management Checklist within Exams Dept. Form 6 (Appendix 1)* compiled by Exam Centre Supervisors, to monitor overall noise management within Exam Centres and review of *Centre Irregularity Forms*

compiled by Exam Centre Supervisors, to check for any occurrence of excessive noise reports.

6. Display of *SILENCE - EXAM IN PROGRESS* signs within relevant Exam Centre main areas and corridors.
7. Provision of Police Officer service within each Exam Centre to maintain order within venue entrance.
8. Provision of specific Access Arrangements to students with hearing impairments and other conditions as stipulated by the Access Disability Support Unit (ADSU) and MATSEC Office.
9. Provision of IT Support Staff to ensure adequate sound checks prior and during specific subject exams including Physical Education, Music and Foreign Languages, making use of the Interactive Board facilities.
10. For examinations involving video and audio, the IT Support Staff conduct a sound check in front of the candidates prior to the start of the exam.
11. Prompt reporting of excessive noise incidents within specific Exam Centres, to MATSEC Office, by the Exam Centre Supervisor.
12. As regards MATSEC exams held at the Gozo Exam Centre, timely communication about exam dates and time with the Ministry for Gozo (MGOZ), and other relevant authorities.

Conclusion

The Department of Examinations, in collaboration with MATSEC office, is fully committed to further strengthening the noise management procedures within MATSEC Exam Centres, to ensure optimal examination conditions for candidates. This protocol is reviewed annually.

Appendix 1 – Centre Form (Form 6)

CENTRE FORM

Form to be completed for each examination by the Supervisor.
